Mr. William Manly, an aged and respected the 23rd of February.

Mr. Jeremiah Moore, an aged and respec table citizen of this County, died at his home near Clinkscales' Mill on the 28th ult. We are requested to announce that there will be a Fair in the Masonic Hall to-night (Thursday) for the benefit of the colored

Our Brushy Creek correspondent failed to comply with the primary rule of all newspaper, which requires a responsible name with communications. The gent demand upon our space this

week prevents the publication of several communications, which will become state before our next is no. be held in the Bourt House on to-morrow (Friday) night to consider the location of

Newberry College in our midst. The Williamston Democratic Club will meet on Saturday, 17th of March, and all members are requested to attend, as business of importance will claim their attention.

The advertisement of James H. Morgan & Co., of Greenville, will attract attention. The citizens of Anderson who trade in our neighboring city will find them clever gen-

Mr. D. K. Norris, a very fine looking young bachelor from Orangeburg, recently pened a new clearing and a settlement near Pendleton, and has since married an estimable young lady from Cokesbury.

Eighteen hundred and forty-eight receipts for the Hampton tax contribution have been issued by the Special Agent, aggregating \$1.385.30. The books are kept open at this office until further instructions.

R. Edmund Belcher has sold his interest in the Hartwell Sun, and returned to Anderson County. He will engage in farming this year. Messrs. Benson & McGill will continue the publication of the Sun, which is a bright, newsy paper worthy of an exten-Our friends who signify a willingness to

furnish "locals" from their respective neigh-borhoods will please bear in mind that we want items of news-not too many comments upon local celebrities. We are anxions to give every locality a chance, and are Brother Speights, of the Greenville News,

has taken charge of the Greenville Hotel, and solicits the patronage of his friends and the public generally. We believe that he is one of the few men who are calculated to keep a hotel, and we would advise all our ends to give him a trial when visiting Greenville. Editors will receive special attention, we are confident.

The death of Ezekiel & Novris, Esq., opcurred at his residence on Wednesday night, 28th of February, in the 84th year of his age. Mr. Norris was a hale, vigorous man, and he was ill only a few hours before death took place. He was a quiet, unobtrusive citizen, greatly esteemed by a large circle of friends and acquaintances. His remains were buried at Roberts' Church on Sunday last, the services being conducted by Rev. Dr. Adger, of Pendleton.

The Anderson Reading Club met Tuesday evening last, at the residence of Mrs. Bew-ley. The meeting was well attended and the Club was re-organized by electing the following officers to serve the remainder of the quarter cading March 31st: President, W. J. Ligon; 1st Vice President, A. J. Watt : 2nft | Wice President, R. N. White : meeting will be held at the residence of Dr. P. A. Wilhite, on Tuesday evening, 13th instant. Readers appointed for the evening are Misses Josio Pockley and Mary Wilhite and Messrs, T. C. Ligen and R. N. White. Ladies appointed to furnish music, Misses Anna Bewley and Mary Towers.

THE WALHALLA COURT. The proceedings of the Circuit Court of Oconec County in Walhalla last week cre-ated general interest, arising from the fact that Alex. Bryce, jr., the notorious Radical politician, was put upon trial for his recent onduct in regard to the Auditor's books. It will be remembered that the books of the County Auditor were turned over to the County Commissioners in January, and that these books were abstracted from the office not long ago, after Chamberlain had sent an appointment to Bryce as County Auditor. The books were found in the possession of Eryce, and he was indicted for the larceny and also for receiving stolen goods.
Upon, being arrested Bryce succeeded in eluding the officer and went to Columbia, open the bag at the post office, as the postal laws prohibited him from taking the keys away from the office. The acting Sheriff was sent with him, and Bryce again sought to evad the order of the Court, which was soon reported to Judge Cooke, who went in person to the post office and demanded in-stant compliance with his order. Bryce could no longer dodge the question, and the books were produced. Great excitement prevailed in Walhalla during these proceedlogs, and it was natural that the subsequent many years. The charge of grand larceny

thority than Chamberlain so directs.

Jordan Crenshaw, the nephew of Bryce, was convicted of perjury, and cent to the

Penitentiary for two years. He swore that several citizens of Walhalia, who captured the mail bag aforesaid containing the Auditor's books, had stolen therefrom a large changing of postage stemas, when the evidence showed that repeated offers to purchase were met with the information that only a few stamps were in the office.

Jesse F. Cox, a brother-in-law of Bryce, was convicted of grand larceny, and sentenced to five years in the Penitentiary. His offence was cow stealing, and not conected with the exploits of Bryce.

Besides these representatives of the Bryce family, Mr. Woodin had in charge two others, who were connected with the post office matter, we believe.

### THE PICKERS COURT.

The Court of General Sessions and Common Pleas convened at Pickens on last Monday, his Honor Judge Cooke presiding. In the absence of Col. Cothran Col. Keith was appointed Solicitor for the term. The former grand jury was in attendance upon the Court, as no new juries had been drawn for the term. Several bills were reported upon by the grand jury, and in their general presentment they reported that no juries being present is the result of a failure and It is rumored that a public meeting will refusal of Mr. Leslie, the former Commisrioner to do his duty, and recommend that the penalty of the law be enforced against him. Judge Cooke issued a rule requiring him to show cause at the next term of the Court. The Judge transacted a large amount of the equity business, and adjourned the Court on Tuesday evening.

BAILBOAD ACCIDENT. An unfortunate accident occurred on the Greenville & Columbia Railroad last Saturday morning, between Honea Path and Belton. The up-freight train, under charge of Conductor Casson, was within four miles of Belton, when the conductor's car was thrown from the track, and several of its occupants injured Rev. B. F. Mauldin, of Williamston, received the most serious injuries, by being severely bruised about the face and head, besides other contusions about his person. It was thought at the time that his wounds were dangerous, but we are glad to report his condition as quite favorable on Monday morning. Rev. R. M. King, of Honea Path, was slightly injured by the accident, and also Conductor Casson and others. Mr. Mauldin was engaged in paying off the employees on the railroad when the accident occurred, and was making the usual trip for that purpose. He was taken to his home at Williamston on Satur-

communion services at Smith Chapel (Methodist) Church last Sabbath, the Rev. Dr. Smeltzer, of Walhalla, officiating ...... its cent to Townsille, on the South side, is a remarkably dense wood of five or six hundred acres. It is truly a wilderness of a place, and starcely a sound save the namedonous hooling of the owl, and the sad wall of the whip-poor-will, ever disturbs the solitude. And it's here where the Fork Localizer most does domicile.

HOPEWELL ECCALS. As you have asked locals from the variou sections of the County, we prepose to give you an item or two from the above section. .... Hopewell is one of the largest townships in the County, and is compos al almost ex clusive!, of planters. We have, therefore, been dealing largely and freely in commer-cial fertilizers for the purpose of producing cotton to the exclusion of grain crops, believing that this system was the shortest way to success. Fertilize, plant cotton, buy sup-plies and pocket the surplus were certainly flattering a few years ago But "figures do not lie" we learned a few years since to our detriment. Instead of a surplus there was a deficit; hence, a gradual reduction of cotton and a corresponding increase of grain planting. We hear of a still farther reduction of the one and an increase of the other this season—c. g. L. D. Stringer decided to reduce his cotton crop this year from twentyfive to ten acres, and to plant this cotton land in corn, peas, pinders, sorghum and potatoes. W. A. Neal proposes to plant ten acres of his intended cotton land in Golden Dent corn. We hope to hear of similar reductions....The Hopewell Cemetery has been repaired and greatly improved in appearance. The friends of this enterprize (and they are not a few) are greatly indebted to the proprietors of the Hopewell Pc table Saw firm. Neal & Guyton, who sawed the entire lumber free of charge. There is but one thing to regret in connection with this firm. The Senior is a bachelor. He has, however, been recently interviewed upon this subject and we have it from apparent semi-official circles that a reformation at no distant day is promised. Let all concerned take due notice .c.....The Hopewell Baptist Sunday School celebrated its first anniversary last Sunday. The day was lovely, the exercises pleasing, the attendance large, and upon the whole it was a day pleasantly spent. The unvailing of the Key Word of the School for 1877, as it was called by the smallest children, was witnessed with no little interest. This exercise was followed by Rev. J. A. French, of Greenville, in a lecture, which chimed in with this exercise in beautiful harmony. After the performance of several pieces of excellent music, an able sermon was delivered by the same gentleman ..... No one expresses a desire to witness the inauguration of Mr. Hayes. HOMO.

Wonders of Modern Science.

Wonders of Medern Science.

The perfect accuracy with which scientists are shalled is deduce the most minute particulars in their several departments, appears almost iniraculous if we view it in the light of the early ages. Take for example the rectro-magnetic telegraph—the greatest invention of the age. Is it not a marvelous degree of securacy which enables an operator to crastly locate a fracture in a submaring table hearly three thousand miles long? Our reagrable "clerk of the weather" has become so thoroughly familiar with those most wayward, elements of nature that he can storm the Washington and foreted what the weather will be to-morrow in Florids or New. York, as well as if seyeral hundred miles did not intervene between him and the places named. And so in all departments of modern science, what is required to the knowledge of control in the practical of modern science, what is required to the knowledge of control in the practical was a second of the places of modern science, what is required to the knowledge of control in the practical second control in the pra New York, as well as if beyoral hundred miles did not intervene between him and the places named. And so in all departments of modern science, what is required is the knowledge of certain signs. From these the scientists deduce accurate conclusions regardless of distance. A few fossils sent to the expert geologist enable him to accurately determine the rock-formation from which they were taken. He can describe it to you as perfectly as if a cleft of it were lying on his table. So also the chemist can determine the constitution of the sun as accurately as if that luminary were not ninety-five million miles from his laboratery. The sun sends certain signs over the "infinitude of space," and the chemist classifies them by passing them through the spectroscope. Only the presence of certain substances could produce these solar signs. So also in medical science diseases have certain unmistakable signs or symptoms, and by reason of this fact, Dr. Pierce, of the World's Dispensary, has been enabled to originate and perfect a system of determining, with the greatest accuracy, the nature of chronic diseases without seeing and porsonally examining his patients. He has spared neither pains nor expense to associate with himself, as the Faculty of the World's Dispensary, a large number of medical gentlemen of rare attainments and skill—graduates from some of the most fareous Medical Collegos and Universities of both Europe and America. By aid of Dr. Pierce's system of diagnosis, these physicians and surgeons annually treat, with the most gratifying success, many thousands of invalids without ever seeing them in person. In recognizing diseases without a personal examination of the patient, they claim to possess no miraculous powers. They attain their knowledge of the patient, they claim to possess no miraculous powers. They attain their knowledge of the patient, they claim to possess no miraculous powers. They attain their knowledge of defending the control of well established principles of modern science to the practice of m for the skillful treatment of all lingering or chronic affections. This system of practice and the marvelous success which has been of ained through it, demonstrate the fact that diseases display certain phenomena, which being subjected to selentific analysis or synthesis, furnish abundant and unnistakable data to guide the judgment of the skillful practificator aright in determining the nature of diseased conditions. The amplest resources for treating lingering or chronic diseases, and the greatest skill, are thus placed within the easy reach of every invalid, however distant he or she may reside from the physicians making the treatinvalid, however distant he of the may reside from the physicians making the treatment of such affections, a specialty. The peculiarities of this scientific system of practice are fully explained in the Appendix of "The People's Common Sense Medical Adviser,"—a book of over nine hundred large pages, which is so popular as to have reached a sale of almost one hundred thousand copies within a few months of its first publication. It is sent (post-paid) by the Author to any address on receipt of one dollar and fifty cents. Address, R. V. Pierre M. D., World's Dispensary, Buffalo, N. Y.

Delays are Dangerous.—Do not put off buying your fertilizer until the last moment, but send in your orders at once. Messrs. Wilcox, Gibbs & Co. have only a limited supply of their celebrated Wilcox, Gibbs & Co.'s Manipulated Guano, and if you delay your order you may fall in having it filled, besides transportation may be obstructed; and in waiting for your guano, your farming operations will be retarded. Recollect "time is money," so call on their agent and obtain your supply before it is too late. Their terms are very liberal; the guano being delivered at interior depots, and the option of paying in Cotton on the basis of fifteen cents for middling, delivered next Fall at planters' nearest depot.

Scarcity of Money.

There is no doubt but the present condition of all kinds of business and industry is fearfully depressed, and it behooves every family to look carefully to their expenses. Winter is coming on when children are liable to Croup, Whooping Cough, etc. Coughs and Colos will prevail everywhere, and Consamption, with other throat and lung uiseases, will carry off many. These diseases should not be neglected. Doctor's bills are expensive, and we would advise our people to use Boschee's German Syrup. It never has failed. One bottle at 75 cents will keep your whole family well during the winter. Two coses will relieve any case. Sold in all towns in the United States, and by your Druggist, Wilhite & Williams.

GUANU AND COMPOUND ACID PHOSPHATE,

Is now offered for sale at the following places in this County. Coasumers of this Guano will find it fully up to last year's quality, which gave such universal satisfaction.

## Tribute of Respect.

At a regular meeting of Hopewell Divison, No. 95, Sons of Temperance, the following preamble and resolutions were unani-

mously adopted:

Whereas, it hath pleased the Great Worthy Patriarch of the Universe to remove from our midst our beloved sister, REBEC-CA F. ACKER; and whereas, we feel that some expression of love and esteem is necessary. Therefore, be it

Resolved, That this Division sustains an irreparable loss in the death of Sister Acker, who was a faithful, zeafous and working member of our Division.

Resolved, That we deeply sympathize with the family of the said deceased Sister in their afflictions.

Resolved, That a blank page in the Recording Scribe's book be dedicated to the memory of our deceased Sister, and that her name, age and death be inscribed thereon.

On.

Resolved, That we wear the usual badge of mourning for thirty days, and that a copy of these resolutions be sent to the Anderson Intelligences for publication, also one to the family of the deceased.

\*6 A true extract from the minutes.

A. B. CARPENTER, R. S.

Simpson & Sadler are giving away a handsome book entitled "Pearls for the people," containing much valuable information and many interesting articles. It also contains a history of the articles. It also contains a history of the discovery of the "Hepatine," for diseases of the liver, dyspepsia, constipation and indigestion, &c., and gives positive assurance that when the Hepatine is used it effects a permanent and lasting cure of these diseases, which prevail to such an alarming extent in our country. Take the Hepatine for all diseases of the liver.

The Hon. Alexander H. Stevens says "The Globe Flower Cough Syrup has proven a most valuable remedy to me." Gov. James M. Snith, of Georgia says: "I shall always use it with perfect confidence, and recommend it to the public as a remedy which will afford that satisfaction experienced by me and mine. It excels everything for coughe, colds and obstinate lung affections."

Ex-Gov. Brown. of Ga., says:—"He finds the Globe Flower Cough Syrup a most excellent remedy."

Such endersement by our great and good men deserves the attention of the afflicted. Those suffering from cough,

afflicted. Those suffering from cough, colds and lung affections should use the Globe Flower Cough Syrup. It will pos-
